DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reifer et al. (US Patent No. 6,421,727) in view of Ginter (US Patent No. 6,658,568) as found in the prior Office action.

Applicant's representative argues that the Ginter or Reifer reference does not teach or suggest generating and transmitting electronic invoice information on behalf of a participant wherein the invoice includes a term requiring payment be sent to the receivable clearinghouse.

In response, the Examiner has cited various locations in Ginter et al. denoting this feature. Ginter teaches an automated clearinghouse system for performing various functions within an electronic commerce system having a plurality of participants of buyers, sellers and banks. Ginter further teaches "Financial clearinghouse 200 may receive payment information 202 from protected processing environment 154 intense secure containers 152 and interact electronically or otherwise with various banking, credit card or other financial institutions to ensure that appropriate payment is made". See column 27, lines 37-65. Ginter further teaches

providing extended additional credit to participants on behalf of another participant. See column 38, lines 5-20, column 42, lines 55-67 and column 44, lines 35-48 of Ginter.

Applicant's representative further argues that both Ginter and Reifer fail to teach or suggest providing a forum within a clearinghouse that allows for selling an obligation to other participants of the clearinghouse.

In response, the selling of obligation or debts from one organization is old and well known in the art. In addition, Ginter further teaches the "financial clearinghouse 200 may issue debit and credit orders 236, 238 to third party financial parties such as banks, credit card companies, etc. to effect debiting of consumer accounts and corresponding crediting of provider accounts..." See column 47, lines 27-45 of Ginter.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
